

# Service Children's Progression

## Why?

- Around four in ten service children with the ability to progress into higher education are unlikely to do so
- Over 75,000 service children receive Service Pupil Premium in over 10,000 schools

## How?

- We conduct research and connect it to practice
- We connect people and support partnerships
- We inform policy and improve outcomes

The SCiP Alliance is led by the University of Winchester, supported by the Ministry of Defence

# Service Children's Progression

We bring people together to support children from armed forces families so that they can make informed and confident progress through further and higher education into thriving lives and careers.

We provide:

- An online resource bank and hub
- Policy briefings
- Events and conferences

The UK-wide network of SCiP Alliance hubs supports effective practice and connects local stakeholders.

Could you be part of the community?

THRIVING LIVES FOR SERVICE CHILDREN

Get involved and make a difference to the children of our military families: [www.scipalliance.org](http://www.scipalliance.org)
