

An update from Quality Assurance Department

Dear Students,

The update for last week focused on 'Enhancement Strategy'

The strategy outlines steps the College can take at various levels to improve the quality of learning opportunities that are available to the students.

The update for this week focuses on 'Environmental Policy'.

The policy aims to set out the College's approaches towards 'Environmental Protection' and 'Environmental Sustainability' across all areas of activity.

The link to the policy on NCL website is as follows:
